10th (Gujrat Secondary and Higher Secondary Board)	Ramdev Vidhya Bhavan	70.00	2018

WORK EXPERIENCE

- Learning management system with Razorpay and Graphy.**

(June-July'23)

Designed and developed a website to serve as a learning management system for a tech firm. Technologies used were HTML, CSS, Bootstrap, JS, and Python. The website was hosted on Graphy and RazorPay is used as a payment gateway.

- Django Rest Framework utility tool for financial analysis for global logistics.**

(June'23 -Present)

These tools serve the purpose of computing revenue, profits, and losses against any of the three Key pillars i.e., Driver, trips, and vehicle. With support for authentication, permissions, and serialization, it's an excellent choice for managing APIs efficiently.

- Creating a Laravel-based Online-Shopping Management System**

(Dec'22 - April'23)

In the proposed system user can search for products according to their choice and then can order. Using Laravel Framework, AJAX, and MYSQL database for manipulation with data and using session and authentication management as well.

SKILLS

- Python – Django – Django Rest Framework
- SQL
- PHP – Laravel Framework
- HTML – CSS – Bootstrap
- JS / jQuery

HOBBIES & EXTRA-CURRICULAR ACTIVITIES
